

MAKING FACES CUPS

Words for feelings are an important part of building vocabulary—try this at home using two plain paper cups.

Cut a circle in one cup.
(Not perfect is okay!)

Draw ears and hair
around the circle.

Put the 2nd cup inside
the 1st cup.

Draw a happy face
on the inside cup.

Turn the inside cup
and draw another face.

Keep turning the cups and drawing faces—how many emotions can you draw and name? It's fun to change them back and forth!
